Consent for Treatment and Consent to Release Health Information

I. Consent for Treatment

I hereby give my consent for treatment for myself, or the named patient (of whom I am the parent or legal guardian who has the right to consent to treatment for the named patient) to the Community Health Centers (CHC). Treatment may include health screening, diagnosis, medical treatment, dental care, social services, mental health or drug and alcohol screening, assessment, diagnosis and treatment, and psychiatry services.

II. Consent to release health information:

I consent to the use within CHC and the disclosure to persons or organizations outside of CHC of my (or of the named patient for whom I am the parent or legal guardian) medical, dental, drug and alcohol, mental health, psychiatry and other treatment and health records ("health information") by CHC for the following purposes:

A. Use of health information by or for CHC for treatment, payment, and health care operations:

- Providing treatment by CHC staff.
- Conducting health care operations, including financial or quality assurance audits and/ or training.
- Bill your insurance company directly
- Payment for services provided by CHC. CHC is authorized to obtain payment for health care services and can provide health records to insurance companies, workers compensation insurers or other agencies that pay for health services, or other updated insurance information on file with CHC.

B. Disclosure of health information to persons or organizations outside of CHC for treatment purposes:

• CHC is authorized to provide all health information to other health providers or agencies who participate in your care. This includes past medical records from outside organizations. (An Individual release of information must be submitted for all family, friends, or other persons that you wish to access your Medical Record information.)

III. Assignment of Benefits

I authorize CHC to bill and receive payment directly from Medicaid /Medicare or any other insurance carrier for services provided to me.

I hereby assign to CHC all payments from Medicaid, Medicare, or any health insurance policy for health care, rendered to me by CHC.

I understand I am responsible for any unpaid balances incurred because of my care at CHC.

I understand that, to the best of my knowledge, the demographic information I have provided is true and correct.

A copy of the CHC payment expectations is available at your request.

IV. Termination and restrictions of this consent:

- **A.** I understand that I have the right to cancel this consent at any time in writing, cancelling this consent will not affect any actions taken by CHC in reliance of this consent before it was cancelled. If not previously cancelled, this consent will end on the following date:

 If none is indicated, this consent will end three years after the last date of services to me.
- **B.** I understand that I may request restrictions on the use or disclosure of my health information for the purposes described in this consent and that CHC may or may not agree to the request. I also understand that except for those restrictions on use or disclosure of health information to which it agrees, CHC will not be able to provide services to you (or the named patient) without this signed consent.
- **C.** I have read this Consent for Treatment & Consent to Release of Health Information, and I understand and knowingly consent to its content.

I confirm that language access services were provided to me before I signed this Consent for Treatment & Consent to Release of Health Information form.

Important Information About Silver Diamine Fluoride

Silver Diamine Fluoride (SDF): Is an antibiotic liquid. We apply it to teeth to help STOP tooth decay. SDF causes the decay to turn black; ONLY THE DECAYED area will turn black. Healthy tooth structure will not be affected. In some cases the tooth may not require any additional dental treatment.

Benefits of using SDF:

- Patient does not need to get a shot, no numbing medicine needed! Application
 of SDF is painless as it is brushed onto the tooth surface just like regular
 fluoride!
- Painless and easy to apply!

Disadvantages of SDF:

- Most effective with multiple applications.
- The teeth treated may still need routine dental treatment in the future (fillings, extraction) depending on the extent of decay.
